

# Low-Profile Vent Closure for Additional Applications

## *Premium* 6" Wall Vent

## Lasting Beauty

The low-profile aesthetic of the 6" Wall Vent helps keep home exteriors beautiful. It is designed to support kitchen and bath systems with 70+ CFM venting.

Galvalume® steel that is also powder coated ensures a long duty life, clearly outpacing plastics and light-weight metal hoods.

### **Model 6WV**

Available in White (shown), Tan, Brown, and Black  
If used for dryer venting, the screen must be removed.

### **Well-built, Uniform Exterior Aesthetics**

Model 6WV is designed to accent or blend in to any home's exterior. It's clean, low-profile lines help to enhance exterior beauty. A heavy gauge Galvalume and powder coated steel body stands the test of time.

### **Airflow Efficiency**

The lightweight damper and clean opening maximize airflow efficiency. While not designed for the demanding needs of residential dryers, this easy opening damper can support all other exhaust systems.

### **Ease of Installation**

Choose this vent for a quick, perfect fit in both retrofit and new construction 6" duct exhaust systems.
