

# High-Performance Low-Profile Termination

## DryerWallVent® Lasting Beauty

### Well-built Aesthetics

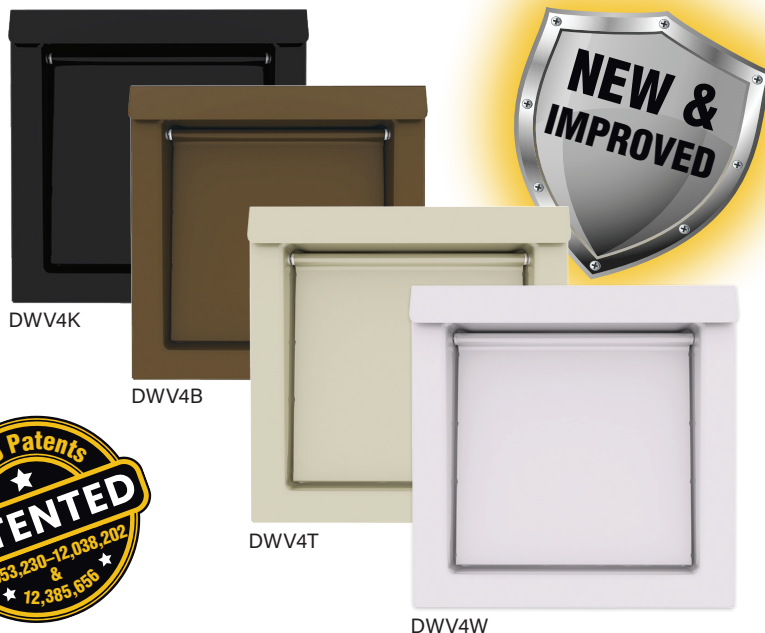

Low profile and clean lines help enhance exterior beauty. With a heavy gauge Galvalume® and powder coated steel body, the DryerWallVent is made to last.

### Ease of Installation

Engineered for a quick, perfect fit in both retrofit and new construction, total replacement time can be as low as four minutes.

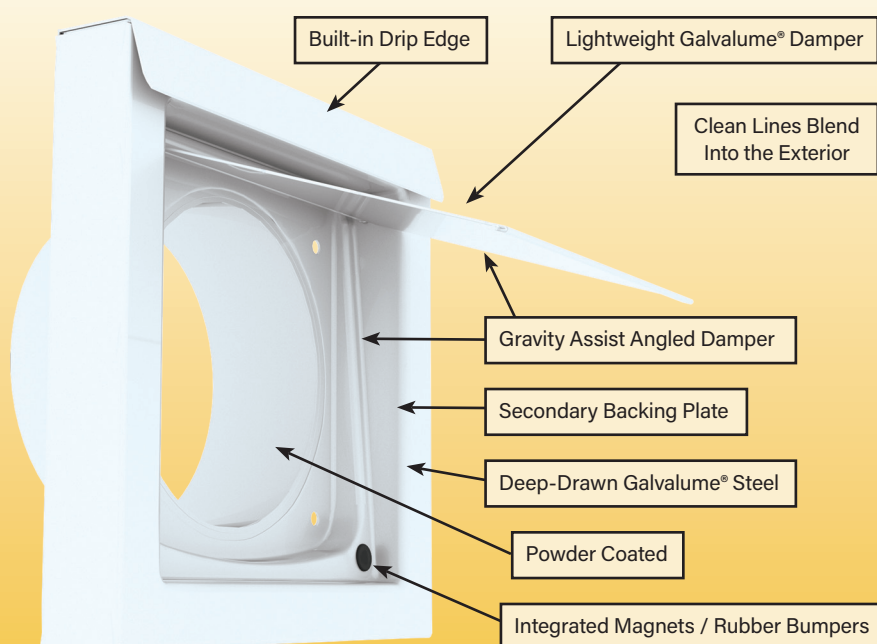

### Airflow Efficiency

The lightweight Galvalume® damper and clean opening maximize efficiency and exceed all code requirements. Less airflow restriction helps save on energy bills, and drying time.

### Efficient, Low Profile Termination

- Lightweight Damper Reduces Airflow Restriction
- Integrated Magnets Deter Bird and Rodent Intrusion
- Damper Easily Accommodates Cleaning Equipment
- Gravity-Assist Damper Provides Extra Protection
